

22nd Nov

Churchill War Rooms,
London

Conference: eIDAS and centralised electronic signatures - transforming digitalisation

Delivering non-repudiation, qualified electronic signatures and user mobility

KEYNOTE BY:

Elena Alampi

As Policy Officer at the DG CONNECT – eIDAS Task Force within the European Commission in Brussels, Elena Alampi is instrumental in the creation of a pan European legal framework for *electronic identification and trust services* (eIDAS) allowing citizens, business, and public administrations to confidently go digital.

SPEAKERS

Thomas Kopp

Chief Scientist, LuxTrust

Guillaume Forget

Managing Director, Cryptomathic

Jan Kjaersgaard

Editor CEN standard for eIDAS remote signing device (PP 419 241-2)

Nick Pope

Principal consultant, Thales e-Security – and
ETSI Vice Chair eIDAS Standards

Morten landrock

EVP EMEA, Cryptomathic

KEY THEMES:

- 1 The objective of the eIDAS regulation and how will it impact your business
- 2 How eIDAS and centralised digital signatures accelerates digitalisation strategies
- 3 See how your peers implemented non-repudiation and enhanced their online security and UX
- 4 Leverage existing infrastructure to deliver advanced or qualified electronic signatures
- 5 Understand the business benefits and the technical challenges when implementing a central signing solution.

THALES

CRYPTOMATHIC

EIDAS AND CENTRALISED ELECTRONIC SIGNATURES

transforming digitalisation

REASONS TO ATTEND

Clunky PKI cards and a broken online UX are out of fashion. eIDAS and server signing open a new paradigm for delivering eSignatures and non-repudiation in a user-friendly and legally binding manner. Join us on 22nd November to:

- See state of the art technology for signing documents and transactions
- Understand the regulatory requirements and new eIDAS legal framework
- Receive feedback from early adopters who have embraced digitalisation
