

30 March

Park Hyatt Zurich -
Zurich

Conference: e-Signatures for ZertES and eIDAS

Deliver qualified electronic signatures in the cloud for non-repudiation and user mobility

KEYNOTE BY:

Prof. Peter Landrock

As chairman and Founder of Cryptomathic, Peter Landrock is an internationally renowned cryptography expert and was instrumental in pioneering the concepts of secure remote digital signatures and What You See Is What You Sign (WYSIWYS).

SPEAKERS

Urs Paul Holenstein

Bundesamt für Justiz

Guillaume Forget

Cryptomathic

Urs Zurbuchen

Ergon Airlock

Nick Pope

ETSI and Thales

Reto Grubemann and Urs Würgler

KPMG

Urs Fischer

SwissSign

Ruediger Lobrinus and Philipp Kuhn

UBS

KEY THEMES:

- 1 The objective of the eID regulations and how will it impact your business
- 2 How centralised digital signatures accelerates digitalisation strategies
- 3 See how your peers implemented non-repudiation and enhanced their online security and UX
- 4 Leverage existing infrastructure to deliver advanced or qualified electronic signatures
- 5 Understand the business benefits and the technical challenges when implementing a central signing solution.

E-SIGNATURES IN THE CLOUD FOR ZERTES AND eIDAS

transforming digitalisation

REASONS TO ATTEND

Clunky PKI cards and a broken online UX are out of fashion. ZertES, eIDAS and server signing open a new paradigm for delivering eSignatures and non-repudiation in a user-friendly and legally binding manner. Join us on 30 March 2017 to:

- See state of the art technology for signing documents and transactions
- Understand the regulatory requirements and new legal framework
- Receive feedback from early adopters who have embraced digitalisation

AGENDA

- 13.00 Registration
- 13.30 Key note: The spirit of innovation in electronic signatures
[Peter Landrock](#), Cryptomathic
- 14.00 ZertES and eIDAS, the revised Swiss signature law and alignment work with eIDAS
[Urs Paul Holenstein](#), Bundesamt für Justiz
- 14.20 Certificates, the trust anchor for your digitalisation strategy
[Urs Fischer](#), SwissSign
- 14.40 A common security and authentication framework for multiple applications
[Urs Zurbuchen](#), Ergon Airlock
- 15.15 CEN and ETSI standards and compliance
[Nick Pope](#), ETSI and Thales
- 15.40 UBS Case study
[Ruediger Lobrinus](#) and [Philipp Kuhn](#), UBS
- 16.10 Compliance and service certification
[Urs Würgler](#) and [Reto Grubemann](#), KPMG
- 16.30 Panel Discussion and Q&A
- 17.00 Aperó Riche
